MINIMAL STANDARDS APPLICABLE AT IFIN-HH
for being awarded the professional ranks of
First Stage Researcher (Research Scientist - CS) and
Recognised Researcher (3rd rank Research Scientist - CS III)

Approved in the meeting of IFIN-HH Scientific Council of 27.02.2025 (SC Decision No. 5/27.02.2025)

Minimal Standards (at IFIN-HH)

1) IFIN-HH shall establish threshold scores ($P_{\text{threshold}}$) according to the table below.

	First Stage Researcher (CS)	Recognised Researcher (CSIII)
$P_{\text{threshold}}$	0.50	1.50

2) During the evaluation of the candidate's scientific activity, the score P is determined in the following manner:

$P = P_1 + P_2$, where

P_1 : for articles where the candidate is an author, but not a first author or a corresponding author: $P_1 = \sum_i a_i / n_i^{ef}$

P_2 : for articles where the candidate is a first author or a corresponding author: $P_2 = \sum_i a_i$

a_i = is the absolute Article influence score of the scientific journal where article i was published, according to its year of publication as per <http://www.eigenfactor.org/> for articles published until 2006 and Journal Citation Report (Web of Science) starting from 2007; if the publishing year cannot be found in the database, the closest year shall be chosen.

n_i^{ef} = is the actual number of authors of item i and is determined as follows:

n_i	if $n_i \leq 5$
$(n_i + 5)/2$	if $5 < n_i \leq 15$
$(n_i + 15)/3$	if $15 < n_i \leq 75$
$(n_i + 45)/4$	if $n_i > 75$

where n_i is typically the number of authors of item i . In the case of HEPP (High Energy Particle Physics) publications with a large number of authors, if the article is based on an internal note of the collaboration and the candidate is a co-author of this internal note, then n_i^{ef} can be given by the number of authors in the internal note.

The capacity as first author or corresponding author shall be determined based on the mentions in the article. Articles where authors are indicated in the alphabetical order of their name and the candidate is a first author exclusively due to their name and the alphabetical order shall not be taken into account. In the case of HEPP publications with a large number of authors, if the article is based on an internal note whose approval for sending to publication was upheld by the author, then the author is considered first author.

The right to data portability refers to the right to receive personal data in a structured, commonly used manner, and the right for such data to be transmitted directly to another controller, if technically feasible.

The right to object refers to the right to oppose the processing of my personal data.

The right to rectification, refers to the correction, without unreasonable delays, of any inaccurate personal data.
